14. Application for Grant Funding Only

Complete this section only if you are a Regular Operating District requesting consideration for grant funding. The previous process for grant funding allocations has changed significantly. **For a school facilities project to be considered for grant funding, the proposed scope of work must be 100% eligible for State support and be included in one of the priority "levels" described in Section 12B.** If the project scope is not 100% eligible for State support and/or the scope of work is not included in one of the three prioritization levels, the project will not be considered for grant funding. However, a district may request debt service aid if the proposed scope of work, or a portion of the proposed scope of work, is eligible for State support. Please review the grant funding information available on the Office of School Facilities web page at <http://www.nj.gov/education/facilities> for additional information, including the application process, eligibility, and critical deadlines.

A. Grant Funding Priority Levels and Proposed Scope of Work: Indicate the proposed project scope of work in accordance with the three grant funding prioritization levels. If the proposed scope of work is not applicable to any of the prioritization levels and/or is not 100% eligible for State support, the project does not qualify for grant funding. If the project has work applicable to more than one level, the project will be prioritized in the lower level. Please note that the Department will not confirm the district's priority level selection or make a final determination concerning priority level prior to grant approval or rejection notification.

One or More Checklists and the Transmittal Must Accompany This Form when sending your submission package to the NJDOE. Please review all checklists to verify which are applicable. They include:

- **School Facilities Project Submission Checklist** **DOE Form - 121**
 Use **Form-121** to I.D. submission requirements for your type of project
- **Various Land Acquisition and Disposal and Facility Closing Checklists** **DOE Forms - 150, 151, 152**
 Use **Forms-150, -151, and -152** to I.D. additional submission requirements for projects involving Land Acquisition/Disposal or Facility Closing(s)
- **Temporary Facilities Submission Checklist** **DOE Form - 126**
 Use **Form-126** to I.D. additional submission requirements for projects involving temporary facilities

 If this is a Pre-Development Application (a "Request for Pre-Development Services") **DO NOT USE THIS APPLICATION FORM. Project Application Notes

SDA Districts (N.J.A.C.6A:26-3.9(d))

- 1) Prior to project submission, a Pre-Development request must be filed, and activities must be undertaken by the SDA. One exception is Other Capital Projects approved by the Abbott District's DOE Budget Manager.

Executive Order 215 of 1989 ("EO-215"):

NOTE: The assessment or impact statement shall be prepared as early in the planning and design process as possible, but in all cases submission and review must be completed prior to site preparation and/or any construction activity for the project.
 In the case of a project to be funded by the State, review of the assessment/impact statement must be completed by the DOE prior to awarding any financial assistance for the commencement of site preparation and/or any construction activity.
 If the school facilities project is approved by NJDOE, the district must still submit to NJDOE the assessment/impact statement for their submission to NJDEP with sufficient time to review per EO-215, prior to site preparation or any construction activities or receipt of State funds for same.
(Submit 7 copies to NJDOE: 1 for NJDOE records, 6 to be forwarded by NJDOE to NJDEP for review).

14. Application for Grant Funding Only

Complete this section only if you are a Regular Operating District requesting consideration for grant funding. The previous process for grant funding allocations has changed significantly. For a school facilities project to be considered for grant funding, the proposed scope of work must be 100% eligible for State support and be included in one of the priority "levels" described in Section 12B. If the project scope is not 100% eligible for State support and/or the scope of work is not included in one of the three prioritization levels, the project will not be considered for grant funding. However, a district may request debt service aid if the proposed scope of work, or a portion of the proposed scope of work, is eligible for State support. Please review the grant funding information available on the Office of School Facilities web page at <http://www.nj.gov/education/facilities> for additional information, including the application process, eligibility, and critical deadlines.

A. Grant Funding Priority Levels and Proposed Scope of Work: Indicate the proposed project scope of work in accordance with the three grant funding prioritization levels. If the proposed scope of work is not applicable to any of the prioritization levels and/or is not 100% eligible for State support, the project does not qualify for grant funding. If the project has work applicable to more than one level, the project will be prioritized in the lower level. Please note that the Department will not confirm the district's priority level selection or make a final determination concerning priority level prior to grant approval or rejection notification.
