July 31, 2023

Dear WTPS Community:

I hope this letter finds you enjoying the Summer of 2023. WTPS has been very active this summer. Between the summer programs for PK-12 students, refining the strategic plan, and moving forward with referendum projects, July flew by! Please be sure to visit our district website landing page to see some student photo highlights from this summer. Judging by the smiles in these photos, it looks like students and staff had and continue to have a great time learning and creating together.

On July 18, 2023, WTPS closed on the sale of bonds made possible through the passed referendum. I am so grateful to the voters of Wall Township for enabling the district to invest in our schools and infrastructure. Through the referendum, we were able to capture millions of dollars in additional state aid that would have otherwise been allocated to different school districts. Since closing on the bonds, we have been able to move forward with two major referendum projects. Last week, you may have noticed the replacement roof project at Wall High School and the parking lot project at Allenwood School have begun. Please visit our "Referendum" tab on our website to see photos of the progress to date ([click here](#)). Now that these projects are underway, WTPS will be working with architects and other professionals on the design phase of other referendum capital projects. Stay tuned!

May the month of August bring you and your families much happiness, special memories, and great weather.

Sincerely,

Tracy R. Handerhan, D.Litt.
Superintendent of Schools
